DEPARTMENT OF FISH AND GAME  
**2009 SISKIYOU ROOSEVELT ELK HUNT**  
[www.dfg.ca.gov](http://www.dfg.ca.gov)

**General Information:** Congratulations on being drawn for the Siskiyou Elk Hunt! Portions of the hunt area are heavily forested, steep, and rugged. Much of the area is comprised of private land, a great deal of which is agricultural. Elk do not occur throughout the entire area so gathering the information in advance of your hunt will likely be useful. Please be aware that although elk occur on public land within the hunt area, in some years, the majority of the herd occupies private land where hunting is prohibited or landowners charge a fee for access. We have prepared the following information to help you have a successful hunting experience.

Some of the elk within the hunt area have been fitted with radio collars. The data we are gathering is critical to the management of this herd. In the event that you harvest a collared animal, please contact Mr. Bob Schaefer at (530) 459-3164 immediately so that we can make arrangements to obtain the collar. In order to prevent the loss of data it is important that we are contacted as soon as possible.

**Regulations:** All hunters should read and be familiar with regulations contained in the current Hunting Regulations for Mammals and Furbearers. Visit the above website address for specific zone regulations (hunt zone map, description, and harvest success information can also be viewed at this address). Section 364 (a) describes the Siskiyou Roosevelt Elk hunt area and hunting season. Some of the elk within the hunt area occur on public lands, however, animals are often found on private property. Remember you must obtain written permission to hunt on private property and hunter trespass laws are strictly enforced.

**Public Land:** Most public land within the hunt area is administered by the Klamath National Forest. The primary access into the hunt area is Interstate Highway 5 and Highway 97. Many county and National Forest roads provide good access to public lands. Please be aware that some national forest roads may be closed to vehicle access during the hunting season to protect natural resources or because they are impassible. Generally, these areas are open to hunting provided access is made by non-motorized vehicle.

**Maps:** USFS maps are available locally at most USFS offices; by contacting the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737); or ordered by phone (406-329-3024), fax (406-329-3030), mail at USDA Forest Service, National Forest Store, P.O. Box 8268, Missoula, MT 59807, or on-line at <http://www.nationalforeststore.com/>. Forest maps are available for a fee and provide general information regarding the location of public lands and roads within the hunt area. District transportation maps are also available for a fee. These maps depict many roads not identified on the general National Forest map. The Goosenest district transportation maps will likely be the most useful to you.

**Weather:** Weather in this region is highly variable. It may be quite warm but early storms are common. Snow during your hunting season would be unusual but heavy rains can occur making some roads impassable. You should be prepared with appropriate clothing and equipment for a variety of weather conditions.

**Camping:** Camping is available at National forest campgrounds and is usually permitted at undesignated sites on the forest. Please refer to the Klamath National Forest map for the locations of designated campgrounds or contact the Klamath National Forest for further information.

**Care of Meat:** Conditions during the elk hunting season can be quite warm. The weather and the steep, rugged terrain within the hunt area make it critical you are prepared to properly care for the meat if you harvest an animal. You should be prepared to skin and quarter or bone your elk immediately after it is tagged. The meat should be hung in flyproof breathable sacks in the shade until you pack it out. If you are hunting by yourself, you will need, at minimum, four game sacks, plenty of rope, a game hoist, a knife, a knife sharpener, and a pack frame. A meat saw or hatchet and a tarp would also likely be helpful. Black bear are present within the hunt area so caution is warranted if meat is left unattended.

#### **Meat Cutting and Storage Facilities:**

Shasta Valley Meats  
410 South 11th Street  
Montague, California 96067  
(530) 459-5149 or (530) 459-5238  
Provides cut, wrapping, freezing, and hanging services.  
Open Tuesday-Saturday, but can arrange for service on weekends or evenings.

Siskiyou Distributors  
1313 Foothill Drive  
Yreka, California 96064  
(530) 842-1616  
Provides cut, wrapping, freezing, and hanging services.  
Open Monday-Friday and Saturday morning 0900-1200.

**Deer Season Overlap:** Please be aware that the last two days of the Siskiyou Roosevelt Elk Hunt overlap with the first two days of the C-1 general deer season. Therefore, on those dates you may encounter deer hunters in the field.

**Additional Information:** If you have any questions regarding this hunt, please contact Mr. Bob Schaefer at (530) 459-3164.

Again, congratulations and we hope you have an enjoyable hunt.
